GLORIES OF THE YO-SEMITE, California.

THE YO-SEMITE FALLS is situated on the North side of the Valley near the Three Brothers. The First Fall is about 1,600 feet—the Second or Cateract, 434 feet—the Third 600 feet. The view in May and June, after the heavy rains, is very grand. The immense volume of water falling so great a distance makes the earth tremble, and the roaring and surging is terrific. The Upper Fall is one-third of a mile from the Valley, and in a gorge. Here fierce gusts of wind often sway the stream from side to side tearing it asunder. See Instantaneous Views of this series.
